### REGULATIONS FOR CONTINUATION SCHOOLS AND FIFTH FORMS

#### PREFATORY NOTE.

The provisions of *The Continuation Schools Act of 1909* have made it necessary to amend the Continuation School Regulations of 1908. Next summer all the regulations affecting the support, organization, and courses of study of the Continuation Schools, including those common to them and the High Schools, will be published in one pamphlet. The same course will be adopted in the case of the Public Schools, including Fifth Forms which share in the Legislative Grant.

---

#### GENERAL REGULATIONS.

##### I. *County and Legislative Grants.*

**1.** The yearly apportionment by the Minister of Education of the Legislative Grant to each Continuation School and Fifth Form in the organized counties shall be the total of the sums apportioned on the different bases set forth below in the case of each grade.

NOTE 1.—If the Legislative Grant is not sufficient for, or if there is a balance over, the apportionment on the bases provided below for each class of school, the Minister may make a *pro rata* adjustment of the total in the case of each class.

NOTE 2.—The object of the Grants is to assist School Boards to provide an adequate education for the children of the locality, not simply to reduce the local school rates. The Departmental scheme of apportionment helps those that help themselves.

**2.** (1) All sums received by a Board of Trustees from the Legislature and the County as a Continuation School or Fifth Form grant shall be expended on the salaries and equipment of said School or Form alone.

(2) In the case of Continuation Schools, on or before June 1st, and, in the case of Fifth Forms, on or before July 15th, of each year—

(a) A financial statement shall be submitted through the Inspector concerned, by each Board to the Minister of Education, in a form to be provided by the Department of Education, showing the receipts and expenditures on this account, with such additional particulars as the Minister may require; and

(b) As a condition of the payment of the Legislative Grant, the Inspectors concerned shall certify, in a form to be provided by the Department of Education, that, to the best of their knowledge and belief, the provisions of the Regulations have been fully complied with.

NOTE.—Besides inspecting the time table at each of his visits, the Inspector should require the principal to submit to him by the close of the year or on a change in the principalship, a copy thereof with a statement and explanation of any changes made therein during the preceding session.

## II. *Equipment.*

**3.** (1) The Equipment for a Continuation School or Fifth Form shall be for the special needs of such school or form and shall be approved from time to time by the Inspector of Continuation, Public, or Separate Schools, as the case may be.

(2) The date at which the minimum equipment of Continuation Schools or Fifth Forms shall be imperative shall be at the discretion of the Minister of Education, on the report of the Inspector of Continuation, Public, or Separate Schools, as the case may be.

(3) From year to year, School Boards shall expend on equipment such further sums as may be required by the Minister of Education, on the report of the Inspector of Continuation, Public, or Separate Schools, as the case may be.

NOTE 1.—Without the special equipment, the teaching cannot be effective, more particularly without a supply of suitable books for the library and of apparatus for teaching Science. In rural school sections the course in Science with its Agricultural applications should be made a prominent one. The work in Art, including the drawing of building and other plans, is also important. *For teachers who are not properly qualified in Art and Science, the Minister provides at the University of Toronto free Summer School classes.*

NOTE 2.—At least one locked press or cabinet should be provided to contain the books and the apparatus. The chemicals should be kept in a separate press. For the safe-keeping of all the equipment, the Board should hold the principal responsible; and, on a change of principal, it should investigate the condition of the equipment.

NOTE 3.—The special equipment shall be entered under suitable heads in the catalogue separately from the ordinary equipment, which latter shall not be included in computing the grant for the Continuation Schools or Fifth Forms. The catalogue and the invoices of new equipment shall be inspected at each visit by the Inspector or Inspectors concerned. The invoices shall be kept on file at the school. The various items of the equipment shall also be valued by the inspectors as often as may be rendered necessary by the condition of said items.

## III. *Teacher's Qualifications.*

**4.** A teacher who was qualified for a Continuation School or Fifth Form under the Regulations of 1907 shall remain qualified under the same School Board for the Continuation School or Fifth Form in which he is now teaching.

**5.** (1) Before appointing a teacher, Boards of Trustees should consult the Inspector of Continuation, Public, or Separate Schools, as the case may be, in order that all the necessary subjects of study may be adequately provided for.

(2) When after due advertisement and offering the highest salary it is able to afford, a Board of Trustees is unable to obtain a legally qualified teacher, a temporary certificate, valid for the current half-year, may be granted by the Minister of Education, on the report of the Inspector concerned, to a suitable person, on application of said Board through the Public or the Separate School Inspector.

## APPROVED SCHOOLS

**13.** A Grade A or B Continuation School which fulfils the following requirements shall be entitled, on the report of the Continuation School Inspector, to the status of an Approved School:

### ACCOMMODATIONS AND EQUIPMENT.

(1) The Accommodations of the school, including the laboratory provisions for the teaching of Science, shall be both adequate and suitable for the courses taken up.

(2) (a) The Equipment shall be at least the minimum prescribed in Regulation 9 for Grade A Continuation Schools.

(b) Equipment for practical work by the pupils in Physics and Chemistry is indispensable.

### STAFF.

(3) The members of the staff shall be legally qualified and competent to teach all the subjects under their charge.

### ORGANIZATION AND MANAGEMENT.

#### *General.*

(4) (a) The organization of the whole school shall meet the demands of the Regulations and the necessities of the situation.

(b) The following shall be the average minimum amount of time to be devoted to each of the following subjects, separately from the other subjects:

(1) *Reading*.—Two lessons of thirty minutes each every week for two years in the Lower School, the average number of pupils in each class being not more than twenty-five and the time being increased or diminished proportionately when the average in the class is greater or less than twenty-five. In all the school subdivisions, Reading shall also be taken up systematically in connection with English Literature.

(2) *Writing*, apart from Book-keeping.—Two lessons of thirty minutes each every week throughout the first year or until the pupils have acquired a graceful, legible business hand.

(3) *Elementary Science*:

(a) For Biology, a lesson for two years in the Lower School, of thirty minutes every day, or the equivalent thereof, during the months of September and October, and from the beginning of April to the end of June, the time for Biology being divided about equally between Zoology and Botany.

(b) In Physics and Chemistry a lesson for two years in the Lower School, of thirty minutes three times every week, or the equivalent thereof, during the rest of the school year.

(4) *Physical Culture*:—Drill and Calisthenics shall be taken up at the discretion of the Principal as often as the weather, the accommodations, and the adequacy of the staff will permit.

(5) No pupil shall be exempted from the course in Physical Culture except upon a medical certificate or on account of evident physical disability or of other reason satisfactory to the Principal and approved by the Inspector. In all the forms the sexes shall be separately trained.

(6) Subject to the approval of the Inspector, the Principal may substitute for part of the course in Physical Culture, suitable sports and games in which all the members of a form shall take part and which shall be under the supervision of members of the staff.

(c) Schools in which any of the forms or classes are so large as to interfere with the efficiency of the teaching shall not be approved.

NOTE 1.—When in doubt as to the adequacy of the staff, School Boards and Principals should consult the Inspector.

NOTE 2.—In order to secure progressive development and economy of effort, division of a subject among two or more teachers should be avoided. In some schools this may not be practicable in all subjects, but the principle should be observed in the Lower School.

#### *Science Teaching.*

(5) The courses in Biology, Physics, and Chemistry, shall be taken up practically throughout by the pupils.

#### *Promotion Examinations.*

(6) The adequacy of the pupil's knowledge in the following Lower School subjects should be decided, not only by the character of the exhibits prescribed in Regulation (8) below; but, as is usual in other subjects, by a promotion examination extending over each of the courses; and the Principal should preserve for the Inspector a copy of each of the final examination papers in these subjects with a statement of the total marks obtained in each subject by each pupil:

Reading, Writing, Spelling, Book-keeping and Business Papers, Art, Biology, Geography, English Grammar, and Arithmetic and Mensuration.

#### *Status of Certain Pupils.*

(7) (a) When the Principal admits into the Middle School pupils of his own school, who have not completed satisfactorily to him the Lower School courses in the subjects enumerated in Regulation (6) above, he should in September provide classes in the course or courses which they have not completed.

(b) When pupils enter from other schools the Principal should require them to pursue under his supervision the full Lower School course in the subjects enumerated in Regulation (6) above, unless, after due investigation and examination, he finds in individual cases, that credit may be given for work done in the other school.

NOTE 1.—The cases of pupils who enter a Non-approved School from an Approved School in which they have completed satisfactorily to the Principal thereof the courses in the subjects enumerated in Regulation (6) above, should be referred to the Inspector.

NOTE 2.—The School Records should show each pupil's Lower School status under the Approved School Scheme, in such a way that, on the retirement of a member of the staff, there may be no doubt as to the situation.

#### EXHIBITS.

(8) (a) The pupils' work in Art, their note-books in Science, and their exhibits as prescribed for Approved School standing in Book-keeping and Business Papers in Note 1, p. 24, of the High School Course of Study, shall be satisfactory.

(b) The complete exhibits of each pupil for each year in the Art, Science, and Book-keeping and Business Papers of the Lower School should be collected by the Principal at the end of June, and held for the Inspector's examination and rating.

(c) All exhibits of the Art and Science of the Lower School should indicate, by an intelligible system of dating, when the work was done; and the work submitted for examination should, as far as possible, be arranged in the order in which it was accomplished.

(d) Care should be taken to keep separate the first year work and the second year work of each pupil.

#### INSPECTOR'S EXAMINATIONS.

(9) The Inspector's examinations, both oral and written, shall test whether the work of the different classes, especially those of the Lower School, has been properly done.

#### FORFEITURE OF STATUS.

(10) Subject to the approval of the Minister of Education a school shall lose the status of an Approved School, if the Dean of the Faculty of Education or the Principal of a Normal School reports that the preparation of the pupils from a school in the subjects enumerated in (6) above has not been satisfactory.

#### CERTIFICATES FROM APPROVED SCHOOLS.

**14.** A candidate for admission to a Normal School or a Faculty of Education who presents a certificate in the form prescribed in Schedule A, below, and who has passed the prescribed July examination, shall be admitted without further examination.

NOTE 1.—The Departmental approval of a school confers no standing on any of its pupils. Without the Principal's recommendation, no pupil is entitled to exemption from the September examination.

NOTE 2.—The dates of the September examinations for admission to the Normal Schools, with other particulars pertaining thereto, may be obtained each year on application to the Deputy Minister of Education.

NOTE 3.—Particulars as to the examinations of the Faculties of Education are contained in their Calendars, which may be obtained on application to the Registrars of the University of Toronto and Queen's University.
